JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

No quarantinable disease was reported in Habana during the week. One case of dengue was reported during the month of January, 1907

*Reports from Matanzas—Inspection and precautionary quarantine of vessels—Summary, January, 1907.*

Acting Assistant Surgeon Nuñez reports, February 5 and 11, as follows:

Week ended February 2, 1907. Four bills of health and 1 certificate of immunity were granted. The American schooner *S. M. Bird*, bound to Mobile direct, was fumigated when about to sail for her port of destination. She left with all well on board. The British steamship *Queen Olga*, originally from Tampico, Mexico, was held in precautionary quarantine by the Cuban authorities while at this harbor. No sickness developed on board up to the time of her inspection.

No quarantinable diseases were reported in the city or province during the week.

*Transactions for the month of January, 1907.*

Bills of health issued.....	21
Crew.....	858
Passengers.....	0
Sailing vessels fumigated.....	3
Health certificates issued.....	0

There were no transactions for the Canal Zone nor for the Republic of Panama.

No quarantinable diseases reported in this district during the month.

Week ended February 9, 1907. Bills of health issued to 7 vessels leaving this port for the United States. The Norwegian steamship *Otto Sverdrup*, originally from Buenos Aires, via Montevideo, Santos, Barbados, and Sagua la Grande, was held in precautionary detention in quarantine by the Cuban authorities while at this port. This vessel was disinfected on its arrival at Sagua and was also held there under observation, it leaving February 8 for New York direct, without any sickness on board. The Spanish steamship *Catalina* left this port February 7 with 27 immigrants in transit for New Orleans. They were taken on in Barcelona and other Spanish ports and were carefully inspected on leaving this harbor.

*Report from Santiago—Inspection of vessels.*

Acting Assistant Surgeon Wilson reports, February 4, as follows:

Week ended February 2, 1907. Bills of health were issued to 3 vessels bound for the United States. No vessel was fumigated. No quarantinable disease has been reported.

GERMANY.

*Smallpox in Hamburg from 1899 to 1905.*

[From the report of the medical authorities of the city of Hamburg.]

During the period from 1899 to 1905, 32 cases of smallpox, with 2 deaths, were reported in Hamburg. They were distributed as follows: In 1899, 9 cases; 1900, 4 cases, 1 death; 1901, 2 cases, 1 death; 1902,
